## Design

# Risk & Mitigation

Refactoring of  
Code Led to Halt  
in Development

Other developers work  
on the old system  
while one person ports  
the engine to the new  
system

Not Enough Time  
to Complete All  
Planned Features

Cutting of certain  
features that are  
deemed unnecessary

TECH

# Risk & Mitigation

New features & UI  
are untested

Conduct own playtest  
once fully integrated

Balancing of  
Skills

Constant testing and  
rebalancing of  
skills/stats.
